2. [redacted] I advised the Executive Director of the case of [redacted] wherein it has been discovered that [redacted] had a large accumulation of official classified documents in his home. The Office of Security is investigating and a report of the matter has been made to DD/P. I will forward Colonel White a summary of information on this case.

3. [redacted] -Harvard Advanced Management Program: [redacted] was scheduled for this fall's session at Harvard for the AMP. As a result of his recent assignment in DD/S&T, Bud Wheelon asked that his attendance at Harvard be cancelled. Wheelon offered [redacted] as his replacement but we said "no." [redacted] was alternate to [redacted] but we cannot spare [redacted] at this time. [redacted] was scheduled for the spring 1967 session at Harvard but is willing and ready to change and take the fall session. I have discussed this with both [redacted] and John Richardson. Final decision will be made Monday, 1 August, when Howard Osborn returns from annual leave.

4. [redacted] -Industrial College of the Armed Forces: A problem has developed over the assignment of [redacted] for attendance at ICAF by virtue of some public activities of his son which might reflect discredit on [redacted] and the Agency. In a discussion of this with John Richardson it developed that [redacted] was the principal nominee for this College but was withdrawn in anticipation of his assignment to FE Division. This, however, is not materializing since [redacted] took this job. Accordingly, we are sounding out [redacted] about his willingness to attend ICAF this fall. If agreeable we will then have to come up with a replacement for Ed. My thinking at this time is to have [redacted] replace Ed and [redacted] upon his return to headquarters. Since there is a gap between these two, we may have to temporarily assign someone to replace [redacted]
